**IF YOU SEE SOMETHING SUSPICIOUS Call the POLICE**

**Emergencies – 911    Non-Emergencies 310-837-1221**

1.) A resident in the Pines witnessed a suspicious vehicle leaving the parking garage and took note of the description. He later learned that there were burglaries involving storage lockers in the garage that day. He shared the information and worked with the Pines management to locate on security video the suspicious vehicle he witnessed earlier in the day. He then notified the police department of his observations and the vehicle's license plate, which the detectives are using to investigate and locate the suspects.

2.) A resident saw a suspicious subject looking into vehicles inside of the parking structure in the Meadows and called the police department. The officers arrived and detained the subject (an LA resident) leaving the parking structure on his bicycle. Through their investigation, the officers searched the subject and found several gate openers to the Meadows apartment complex, three sets of car keys belonging to separate vehicles (an Audi, Mercedes and a Volkswagen), several pieces of jewelry and a credit card belonging to someone else. Also found in his possession were several tools commonly used to break into vehicles. The subject could not provide a valid reason for being inside the parking structure or how he obtained the items found in his possession. He was subsequently arrested.

3.) Several cars broken into and a bike stolen from subterranean garages over the weekend of October 15 at the Pines.

4.) A male who took a garage clicker from an unlocked car from the street, entered the Adobe Grande garage. He rummaged through the unlocked cars in the early morning hours. Caught on security camera.

5.) Bicycle thefts in Heather Village. Photo of man leaving with bicycle tire after being caught. Culver City Police was contacted.

6.) A woman entered the property through the front doors while open by vendor working. The person was caught taking clothing from the laundry room. The Culver City Police were notified by the attentive resident that encountered the individual.
